

ANUSHREE BHURE

SALESFORCE PLATFORM ENGINEER / APPLIED AI BUILDER

Tempe, Arizona / (623) 200-1275 / anubhure98@gmail.com / LinkedIn / GitHub / Portfolio

Platform engineer with four years of enterprise Salesforce delivery and hands-on applied AI systems work. Builds measurable CRM workflows across Apex, LWC, CPQ, Flow, integrations, testing and Agentforce, with additional depth in GraphRAG, cloud infrastructure and production-minded evaluation.

EXPERIENCE

Salesforce BA Aide Mar 2026 - Present

ASU ADMISSION SERVICES

- Configure and support live Agentforce and CRM operations across 100K+ student records; built a rubric-based spam review system for 2,000+ weekly inquiries.
- Found 300+ graduate-application defects before deployment and received the ASU SUN Award.

Application Development Analyst Mar 2023 - Dec 2024

ACCENTURE

- Designed Salesforce CPQ pricing flows in Apex and SOQL, reducing quote cycle time 25% and rework 30%.
- Built reusable Lightning components and MuleSoft-backed analytics; reduced data latency 50% and production incidents 35%.
- Coordinated telemetry, Selenium regression suites and CI/CD quality gates across three defect-free releases.

Application Development Associate Jan 2021 - Feb 2023

ACCENTURE

- Delivered Apex, LWC, Aura, Flow and SOQL features while establishing automated regression coverage for CPQ and Service Cloud workflows.

SELECTED SYSTEMS

CPQ Workflow Modernization

Salesforce CPQ, Apex, LWC, Flow, Selenium -25% quote cycle / -30% rework

AstraNode - NASA Space Apps Winner

GraphRAG system connecting 608 NASA publications through FastAPI, Gemini/LLaMA, Neo4j and React; built in 48 hours and advanced to Global Judging.

Streaming Graph Pipeline

Processed 3,627,882 source rows into 1,530 streamed Bronx trips with Kafka, Kubernetes and Neo4j GDS; earned 100/100.

Elastic Face Recognition on AWS

Custom Python autoscaler expanded from zero to 15 EC2 workers; returned 100/100 correct predictions at 0.961 seconds average latency.

Stealthy RAG Poisoning

Owned the detection and defense layer across Isolation Forest, LOF, MLP and perplexity analysis on a 5,000-document knowledge base.

CREDENTIALS

- Salesforce Administrator
- Platform App Builder
- Salesforce AI Associate
- ASU SUN Award

CORE SKILLS

Salesforce

Apex, LWC, Aura, CPQ, Flow, SOQL, Agentforce, MuleSoft

AI + Data

Python, PyTorch, RAG, LangChain, Neo4j, scikit-learn, pandas

Cloud + Systems

AWS, Docker, Kubernetes, Kafka, Helm, FastAPI, REST APIs

Quality

Selenium, pytest, CI/CD, telemetry, regression strategy, validation

EDUCATION

M.S. Computer Science

Arizona State University AI specialization / GPA 3.81 / Expected Dec 2026

B.E. Computer Engineering

Pune University / First Class with Distinction / 2020

SELECTED SIGNALS

NASA Space Apps

Phoenix winner / Global Judging / 2025

Production impact

-25% quote cycle / -35% incidents / 100K+ records supported

MANAGER SIGNAL

"One of the strongest and most dependable members of our QA team... tester and developer, with strong client relationships."

NITYA MATHUR / DIRECT MANAGER
